Set Goals :to grow the membership, grow our visibility and relevancy to retiring teachers and to have a stronger presence in Education.

NBSRT has been actively recruiting, reaching all retirees through Vestcor mailouts, placed short jingles supporting active teachers on CTV as well as writing letters in papers. They have enhanced the provincial website, kept committees active and are supporting the National coalition for seniors.

Future plans include strategic Planning, in person contact with potential retirees and to help struggling Branches.

2021 Minutes and all Reports were available on each table and are posted on our website.
