

Dear the Society of Retired Teachers Saint John,

My name is Lily Morrow and as a recipient of the 2022 scholarship I wanted to reach out and give my deepest and most sincere thank you for all your help and funding. This year especially has been a hard time financially especially with the new student financial funding and loan services with the New Brunswick EI services that were announce. Working part-time while attending school is never easy, so all your help with your scholarship funding has been so wildly beneficial in my life, and I owe my greatest thanks and appreciations.

Thanks to you, my first semester has been filled with significantly less stress and financial anxiety, allowing me to focus my full attention on my studies. Currently, I am pursuing my Bachelor of Arts degree here at UNB, and will hopefully continue to further my studies here afterwards and get my masters. With less of a need to work, even more of my focus can be spent on learning and bettering my education and learning opportunities. Without your very kind contribution I would not be able to get through school as easily, or even at all so I once again thank you greatly and will remember for the rest of my life this very kind impact your generosity has had.

All the best and my most sincere gratitude, Lily Morrow
